

INVITATION**Oleinitec 13th Nordic Rheology Course**
Ystad Saltsjöbad & Spa, Ystad 2011**BASIC RHEOLOGY COURSE**
Applicational Based Rheology Course

Oleinitec group invites you to the annual Basic Rheology Course. As previous times we focus on applicational based rheology "know-how" with emphasis on applied rheology and industrial approaches. Course language: English.

Course lecturers:
Dr. Jan Plog, Thermo Scientific

- WHO SHOULD ATTEND?

Are you using a rheometer or evaluating rheological data for industrial applications? Are you struggling with rheological problems? Are you the "lonely star" in your lab with no one to discuss rheology data and methods with? Did you look through rheology reference literature, without finding the key essentials for you? If "Yes" to any of above, this course is for you! You are among many others with "unique" rheological problems. Here is an excellent opportunity to learn more about e.g.: **Flow ability, process ability, "Yield point", Storage stability, gel strength, curing, polymer characterisation and more...**

The course is open for everyone who needs to update the theory as well as understanding application possibilities by optimising your methods. As an extra bonus you will meet rheological authorities as well as discussion partners for your rheological applications and queries.

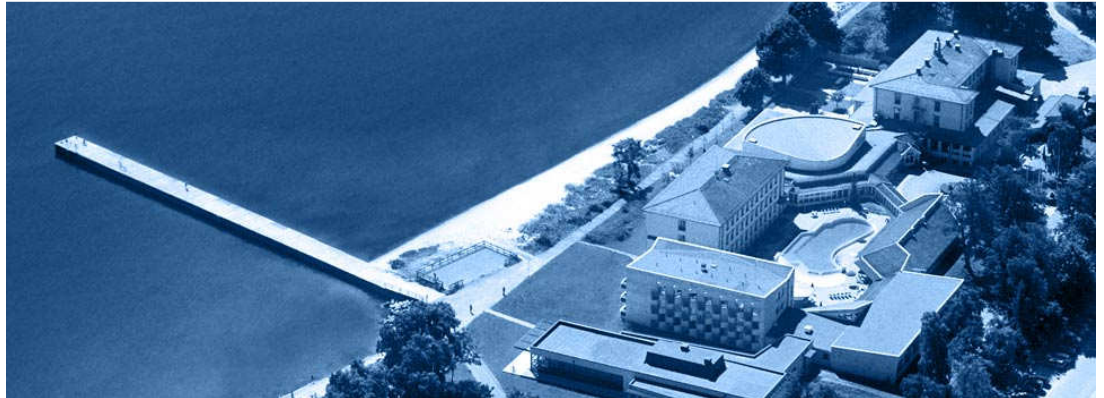

Last day of registration: October 14th

ORTEC

Oleinitec Rheology Training & Education Centre

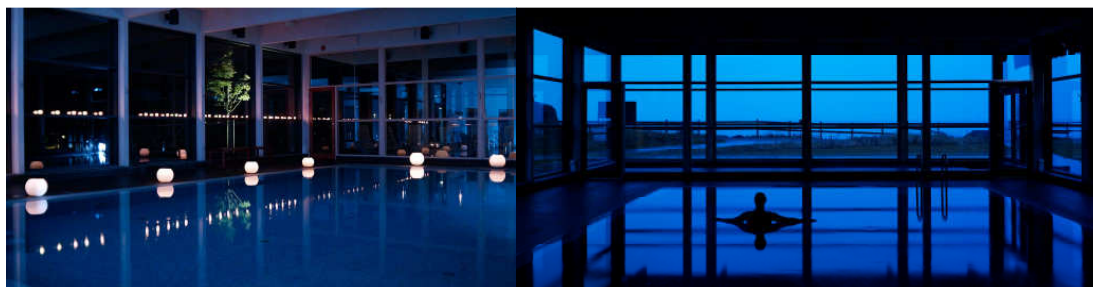

GENERAL INFORMATION

Conference hotel

Ystad Saltsjöbad is situated directly on the coast shore of the Baltic Sea and has been a classic meeting place in south of Sweden since 1897. It has evolved from a traditional "bath hotel" to a fully modern conference facility with beautiful SPA-facilities. The hotel is newly renovated with spectacular settings and decorations. This hotel also hosts Restaurant facilities with ambitious menus.

SPA Facilities

You have the possibility to include a SPA-experience Thursday before the Christmas dinner. To add special SPA-treatments, please book directly at www.ysb.se.

SPA access free of charge with 20% discount on SPA-treatments for conference guests. Hotel room include bath robe and slippers, check in at 3 p.m.
